Kenyon College Students Add Another Crime for Investigation in Ohio.

BOUND, GAGGED AND ROBBED

Oklahoma Young Man Suffers Physical and Pecuniary Punishment.

(By Associated Press.) MOUNT VERNON, OHIO, November 13.-The grand jury will probably not reach its investigation of the death of young Stuart Pierson for three or four days. Following their consideration of the Pierson case, the grand jury will, it is said, investigate the robbery of J. A. McGavery, of Oklahoma, who was found bound and gagged in his room in Bexley Hall, at Kenyon College, yesterday. He Hall, at Kenyon College, yesterday. He had been robbed of money and a ring, but robbery, it is believed, was not the motive for the crime. It is generally thought that it was McGavery who gave the information to the coroner which led to the verdict in the Pierson case, and that the outrage upon him was in retalliation. This belief is strengthened by a note found pinned to the student's clothes, which said: by a note touch, other with the come of the will be the come of the will be worse."

Reports submitted showed the school to be in a flourishing condition. The work during the past year was most successful, and the balance in the treasury is considerably in excess of what it has ever been before. The club now strongly desires a home of its own, and will likely soon take some definite step toward raising the necessary funds. The questions of the state of the s tion was discussed last night, and severa suggestions were made, but no positive action resulted. A committee has been appointed to look further into the matter. appointed to look further into the matter.

No little interest attaches to the decision of the club to hold a free exhibition. An admission fee has been charged heretofore. The last exhibit was a great success, hundreds of Richmond people enjoying the opportunity of seeing many core and heartiful patritus brought to rare and beautiful paintings brought to this city from New York and other Northern points. It is the purpose of the Northern points. It is the purpose of the club to make the coming exhibit, if anything, better than the other. The Northern paintings will be here again, but the exhibit this time will be absolutely free. The expense will be borne by a fund to be raised through popular subscriptions.

Major James H. Dooley was re-elected president of the club, and Miss Elizabeth R. Selden secretary and treasurer. Admiral Harrie Webster becomes vice-president, succeeding Mrs. M. C. Patterson, who retires. The club sent to Mrs. Patterson a letter thanking her for the interest she has shown in the work and for the time and attention she has given to it. Six new directors were elected, one of them being Mrs. Patterson.

The decision of the court may be known by Thursday or Friday of this week. Four lengthy speeches have already been heard, and a fifth will be completed this morning, leaving others to consume the remainder of the

. The scene of the hearing was shifted again yesterday, when the court moved from the State Library building to the City Hall, where it took up quarters in the Street Committee room. Few seized the opportunity to come within the spell of learned discourse. The arguments are technical to the last degree, and the room was practically deserted save for the group of lawyers inside the bar. Two or three people personally interested in the outcome dropped in from time to in the outcome dropped in from time to time, but for the most part the heavy-weight speeches were too much for the common run of visitors. The very ap-pearance of the long tables in the room strewn with about one hundred and fifty books in sheepskin, with the attorneys digging industriously into the pile from different ends, was enough to appall any man who stuck his face through the doorway.

CONTAGIOUS BLOOD POISON

KING OF ALL DISEASES

To Contagious Blood Poison rightfully belongs the name King of all Diseases. It is the most powerful of all human ailments—corrupting every part of the body and wrecking and ruining the lives of those unfortunate enough to contract it. When the first sign appears in the form of an insignificant sore or ulcer, few persons realize that the deadly virus has entered the blood; but so potent is the poison that one drop will vitiate and pollute the purest and healthiest blood, and in a short time the degrading and horrible symptoms begin to appear. The mouth and throat ulcerate, the glands in the neck and groins swell, the hair and eye-brows fall out, copper-colored spots appear on the body, and in the latter stages of the disease the poison even works down and destroys the bones. No other disease is so highly contagious, and many have contracted it and suffered its awful consequences through a friendly hand-shake, handling the clothing of one afflicted with it, or drinking from the same vessel. S. S. S., The King of Blood Purifiers, is the only cure for Contagious Blood Poison. It goes down into the circulation and forces out every particle of the virus. It is nature's antidote for this peculiar poison, and cures the disease in all its stages, and cures it permanently. S. S. S. does not hide or cover up any of the poison to break out in future years, but so completely eradicates it from the blood that no signs are ever seen again. S. S. S. is purely vegetable, we offer \$1,000 for proof that it contains a particle of mineral of any kind. Book with instructions for home treatment

Governor Wants to See Present

Military Better Provided For.

Military Better Provided For,
For the present at least there will be no
brigadier-general for the volunteer military forces in Virginia. The law provides
that there may be such an officer when
three regiments shall have been raised,
and that point has now been reached, but
the matter is in the discretion of the Governor. Governor Montague will take no
steps with this end in view, because he
does not think the present military organization can spure the cost from its
present very meagre appropriation.
The Legislature never gives more than
\$12,000 or \$13,000 to the military fund, and
out of this the adjutant-general's office
has to be maintained.
The Governor is by virtue of his office
a member of the military board, and every
time there is an allotment to be made
he has something to say along the line
that the State is not paying enough attention to her solder boys.

It is not known what view Governorelect Swanson will take of the proposition to have a brigadler-general for the
Virginia military.

Mr. Boaz Much Better.

Mr. Boaz Much Better.

A gentleman who has just returned to the city from Albemaric county says he learned while up there that the condition of flon. William H. Boaz is greatly improved, and that his friends are now hopeful of his recovery.

Mr. Boaz, who has long been chairman of the House Finance Committee, and who was a loader in the recent Constitutional Convention, has been ill for nearly a year, and his condition was thought to be critical for a long time. Mr. Boaz is widely popular throughout the State, and his friends will be glad to learn of the improvement in his condition.

Veteran Organization of District of Columbia to Place Shaft in Arlington.

(By Associated Press.)

WASHINGTON, Nov. 13.—Pians for the raising of funds to creet a monument in Arlington Cemetery to the Confederate dead are to be formulated by a joint committee from every Confederate organization in the District of Columnia at a meeting for that purpose to be held shortly. A sculptor, whose name is withheld for the present, has offered to design the monument without compensation. This cost of its construction and creetion is placed at between \$15,000 and \$29,000, to which fund it is proposed to ask contributions from all Confederate societies of the South. The monument will be placed in the reservation for the Confederate dead in the National Cemetery.

BIG STEAMSHIP IS EXTRACTED FROM MUD

(By Associated Press.)

NEW YORK, November 13.—The steam-ship Graf Waldersee, which went aground Saturday, was floated shortly before 8 o clock this morning and proceeded to her

dock to reload.

The floating of the big liner required an hour's work by six tug boats which were hitched together and pulled as one team. Passengers lined the stranded steamer's high deck cheering every effort of the fugs. Each time that the tugs forged ahead the big steamer moved a few feet through the soft mud.

Before the attempt at release was made about 2,000 of the 14,000 tons of cargo in the Graf Waldersee hold were taken off the steemer. An examination of the hull after the vessel had been floated, showed that the only damage was the loss of paint from that portion which had gone into the mud.
